Priority Observation Often Problematic

The opening event will slip and slide on Badger "Trails". Some roads you will step in it... some roads you won't.

The twist is ???

A moderate to brisk TSD Tour *RoadRally* on scenic paved roads that cut deep into the Great Mississippi River Valley along with windy, twisty, switchbacks to keep you on your toes. Check points will materialize suddenly over crests of hills and around corners. On time, all the time will be the order of the day and **JUST HAVE FUN.**

48th Consecutive Year Running Course (trap) *RoadRally* What's left? The Monte? No, we're not talking full nudity. Most legs will test your ability to correctly determine the main road and a few will test your knowledge of the RRRs. Very few legs have more than one trap. There are no legs that require complex mathematical calculations.
